	aspects of science and engineering in our events, such as experimentation and problem-solving, as we will be primarily using our own designs instead of kits. Model rocketry, which involves launching of model rockets made of lightweight materials and a motor, is very safe as long as safety guidelines are followed, much like many other everyday activities. We will provide the necessary construction materials and rocket motors from Estes, one of the most well known and respected vendors in the hobby. We also have a good supply of RC plane parts. Our activities will primarily revolve around the construction of low-power model rockets and RC planes. We plan to start off the year by constructing simple designs, before moving on to incorporate more advanced features and having design/construction competitions. Explanations of physics and aerodynamics will be included within these activities for those curious. We will be using our prior experience in these hobbies to provide guidance, assistance, and ensure that all participants are behaving safely.
